FINANCIAL AND COMMERCIAL.

WEDNESDAY, Sept. 8-6 P. M. WEDNESDAT, Sept. 6—6 P. M.

The stock market was depressed and the speculative being very tame. At the ten o'clock session of the spen board this morning Eric closed at the call at 87%, Reading 106%, Michigan Southern 65%, Cleveland and Staburg 71%, Rock Island 109%, Fort Wayne 97%, thio and Mississippi certificates 28%. At the first regular board, however, there was an effort made to rally rices, and a general improvement took place. New prices, and a general improvement took place. New York Central closed 1/2 higher than at the second board day, Cleveland and Pittsburg 1/4, Rock Island 1/4, and Mississippi certificates 1/4, Cumberland 1/4, on River, Northwestern and Quicksilver were unhanged. Erie was I per cent lower, Reading 1/4, Prairie lu Chien 14. Government securities were steady. Central National at 105 4

At the open board, at one o'clock, the market wa teady, with the exception of Erie, which was ½ 2 ½ ower. At the second regular board there was a ractional advance in a portion of the list. Reading Southern & Cleveland and Pittsburg %, Northwestern %, Ohio and Mississippi certificates %, New York Contral was unchanged. Erie was % lower. Rock Island %, Quicksilver %. Government securities continued

At the open board, at half-past three, the market was inactive. Coupon five-twenties of the new issue sold at 105%. Eric 88%, Reading 107%, Michigan Southern 66%, Cleveland and Pittsburg 72%, Northwestern preferred 63%, Ohio and Mississippi certificates 29, Quicksilver 50%. Afterwards on the street the market

at the first board, and prices were, on the whole, steady. Watson closed 20c. higher than at the first board yesterday. Excelsior was Sc. lower, United States 20c. At the second board the market was inclined to heaviness. ter closed at \$1 73, Excelsior \$1 21, Tack 44c., chanan Farm 71c., United States \$27 85.

The gold market showed great firmness, and there was n active demand for coin for immediate delivery, upon which the price was bid up from 144% at the opening to 145. The closing quotation was 144%. The shipment f specie by the Persia amounted to \$170,000. Foreign exchange was dull and bankers' sterling at

The money market continues easy at 5 a 6 per cent. but there are fewer transactions at the former rate, owing mainly to the increased demand for money. The discount line employs a considerable amount of capital, and the best grade of commercial paper passes at sever per cent and the secured at 8 a 10.

Although there is no possibility of monetary , according to present indications, it stringency, according to present indications, loanable funds at this point will undergo some diminution within a short time in consequence of remittances estward to move the crops and the general re-distribu tion which follows government disbursements. But this vill not be likely to interfere materially with the movements and purposes of the bull party in stocks. The de cline in the market value of the latter to-day is due to natural causes. The floating crowd professional operators which follows the of the Broad street clique has been on the "bull" side of the market since the Ketchum and Graham failure, and now it is practically what is called ed up with them. Most of these stocks are held at a rofit, and it is natural that there should be a disposition sell among the holders. There are some parties, it is ored, who have been "short" from the time of the anic of August, and these are said to be in high glee wer a prespective fall in the market; but it is well ind them of the importance of not counting thur chickens before they are hatched. The "bears rejust as unscrupulous in serving their own ends as the buls " and unmitigated falsehoods are as freely promulated by the one party as the other. Deception aplayed by both, and such are the demoralizing inos of speculation that most speculators lie involun-Some of those, even, whose business it is to speak he truth concerning matters with which they are equained yield to the influence of cliques, and prosti-

A case of some interest to stock brokers has just been decided—tamely, that of Jaudon & Co. vs. Grey. The plaintiffs and for five hundred dollars-the loss beyond e hundred dollars margin on one hundred shar Erie purchaed for defendant on 21st March, 1864, at 125%. The maintiffs sent a demand for more margin and notice of sie in default to defendant's place of business, but he we out of town at the time. He, however, returned on April 26, when the stock was selling at 117, out meanwhile he stock had been sold out at 108. The ase was submitted to the jury after the Court made the following charge, and a verdict was returned for the plaintiffs for the ful amount claimed:-

Second—The notice served at defendant's place of business during his absence is a sufficient notice, and defendant is bound by it, though not personally served.

Third—If the jury believe that the defendant bought the stock on speculation, and with the understanding that he must keep his margin good, and defendant failed to do so when the stock declined, then plaintiffs were authorized to sell out his stock at the public board, and the plaintiffs should recover full amount claimed. The old La Crosse and Milwaukee suit is to come up

The Acton copper mine of Canada, belonging to a Bos-ton corporation, was sold at auction in that city on Satur-day for twenty thousand three hundred and fifty dollars. The company was originally started with a capital of half a million dollars, divided into two hundred thousand petroleum swindles, it was immediately inflated, until the public was dragged into it at seven dollars per share, when it collapsed and went down to almost nothing, and the fable of the spider and the fly was brought forcibly to the minds of the victims. Such will be the fate of nineteen-twentieths of the oil companies that have been organized within the last four years, with this difference, that the Acton Company paid to its stockholders ten cents on the dollar, while the petroleum concerns will not

pay a cent. mont Central railroads have petitioned the Chancellor of fermont for authority to raise the sum of \$700,000 by the issue of Canada stock or otherwise.
